KILLEEN CARES PROGRAM

The Killeen Police Department recognizes the seriousness and the complexities of mental illness in our society. Our mission at the Killeen Police Department is to serve our citizens who suffer from mental illness with quality, professional and compassionate service. Knowing this valuable information can give the officers the tools they need for a better approach to citizen interaction.

To participate, ask your doctor to complete a mental health self-reporting form. Forms must be signed by the consumer and the consumer's physician.

Once this form is received and signed by your physician, your physician will fax the form to the Killeen Police Department to evaluate your eligibility to participate in the program.

This program is strictly voluntary.
