ROAD MAINTENANCE BEGINS THURSDAY

(KILLEEN, TEXAS): Crews will perform preventative maintenance on several city streets beginning Thursday. Work will take place from 8 a.m. to 5 p.m. daily. Residents in affected areas will receive additional notice as service times near.

Each year, streets are identified to be slurry sealed, a process that extends the life of streets and provides a smoother riding surface. Slurry sealing involves the entire street surface, curb to curb, so cars in affected areas must not park in the roadway. Vehicles may use the roadway once the barriers are removed.

Traffic will be routed around the work zones during these times. Motorists should plan alternate routes.

The streets in order of service are:
