WS YOUNG DRIVE CLOSURE UPDATE

(KILLEEN, TEXAS): WS Young Drive, from Illinois Avenue to Arkansas Avenue, is estimated to be closed through Tuesday for drainage system and roadway repairs.

A sinkhole on WS Young Drive was discovered mid-day Tuesday making it unsafe for use. City staff closed the road in the affected area to diagnose the cause and found erosion and failure of a drainage pipe.

Repairs began Tuesday and involve opening the road to replace the drainage pipe then rebuilding the section of street. Work is expected to continue through Tuesday.

WS Young Drive is a major north-south thoroughfare, and the affected area includes a school and a number of businesses. All motorists will be forced to use detours for the duration of the repair and are cautioned to observe pedestrians, construction workers and signage.

The City of Killeen apologizes for the inconvenience caused by this work and appreciates your cooperation as we make these repairs.
