## **FIRST NATIONAL BANK AND CITY OF KILLEEN JOINING FORCES FOR TRAIL OF TREES INITIATIVE**

(KILLEEN, TEXAS): The city of Killeen and First National Bank Texas are teaming up to reduce paper consumption and increase tree planting in the community. As part of their Trail of Trees program, First National Bank Texas and city of Killeen officials will plant five redbud trees at Timber Ridge Elementary School tomorrow at 10 a.m.

First National Bank Texas is promoting the program via their Go Green with E-Statements initiative. First National Bank Texas members are encouraged to make the conversion to paperless statements in an effort to save time, space, money and trees. First National Bank Texas pledges to donate \$1 to the Trail of Trees program for each member that makes the conversion to e-statements. The goal of the Trail of Trees program is to create shaded natural trails along the perimeter of Killeen elementary schools.

The five new trees will be added to four trees that were planted at the school on Arbor Day by the city's Tree Advisory Board.

For more information concerning the Trail of Trees initiative, contact Brett Williams at (254) 501-8838.
