WATER & SEWER SERVICES
PRECAUTIONARY PUBLIC NOTIFICATION FOR WASTEWATER
DISCHARGES LIFTED

Due to the rupture of a wastewater force main pipe, The City of Killeen (COK) issued a Texas Commission on Environmental Quality (TCEQ) Public Notification Form for Wastewater Discharges on June 5, 2023, to those living downstream of the discharge site along Reece Creek. Under the guidance of TCEQ, the COK has been sampling and testing the water quality in Reece Creek from upstream of the discharge site to the Lampasas River. On July 5, 2023, the TCEQ gave the COK approval to lift the Precautionary Public Notification for Wastewater Discharges that impacted those who have water wells in this area.

If you have questions regarding this matter, you may contact the Manager of Water & Sewer Operations at (254) 501-6305.
