

*Your cooperation will help the City perform a better and less costly service to all citizens.*

## PLEASE

**Move vehicle on collection day or relocate container for easier pick up. It caused a problem today.**

**Place container at least four(4) feet away from any obstacle such as fence, mailbox, or fire hydrant. This will eliminate interference with pickup by our vehicle with mechanical gripper.**

**Move container closer to the edge of the street.**

**Place container so that handle is toward your house.**

**Cut up or collapse all boxes and cartons before placing them in container.**

**Do not put large or long (more than six (6) inches) items such as limbs, lumber or other bulky items in the container. These items can lodge & prevent the full dumping of the container's contents. Please call for brush or bulky item service.**

**The container remains the property of the City and must not be painted, marked, abused, mutilated, altered, or modified in any manner. Paint or markings must be removed without damaging the container's surface or the container will be replaced at your expense.**

**Place your container out earlier. We begin collection at 7 a.m.**

**Remove container from curbside and return it to your storage area by 9 p.m. on day of collection.**

**Do not place these items in your container: dirt, rocks, concrete, demolition or building materials, hazardous materials, lead-acid batteries, oil filters, solvents, flammable liquids, coals.**
